

DH-MAE-D200

Docking Base

- DC/PoE power supply
- Charges a MPT320 device or a battery at the same time
- Backs up the data of MPT320
- Charging time is less than 4 hours (max. load)

System Overview

The product is a charging base with data transmission function. Working with MPT320 device, it can charge the device directly, supply power through PoE, and back up the data of the device, which diversifies businesses and functions of MPT320 device.

Functions

Power supply

Supports 12V DC and PoE power supplies.

Data Backup

Backs up data on an MPT320 device during PoE charging to save time.

Charging Type

Charges an MPT320 device or a battery simultaneously.

Scene

The product is applicable for public security, energy, enterprise, traffic, justice, electric power, insurance, and other industries and departments.

Technical Specification

Network

Network 1 RJ-45 (100 Mbps), PoE

Power

Power Supply 12V DC, 2A
PoE power supply

Power Consumption 24W

Charging

Mode Charge a MPT320 device or a battery at the same time

Voltage 5V, 2A; max. charging voltage: 4.35V

Time	< 4 (max. load)
------	-----------------

Environmental

Operating Conditions	-10°C to +55°C (-14°F to +131°F)
Storage Conditions	-22°C to +70°C (-30°F to +158°F)

Structure

Net Weight	0.418 kg (0.9 lb)
Gross Weight	0.73 kg (1.6 lb)
Product Dimensions	110 mm × 94.6 mm × 116.9 mm (4.3" × 3.7" × 4.6") (L × W × H)
Package Dimensions	208 mm × 170 mm × 139 mm (8.2" × 6.7" × 5.5") (L × W × H)

Dimensions (mm[inch])
